Assupol One Savings Policy

– *save to get what you want*

Plan for that goal by saving an affordable amount every month. We offer yearly cash withdrawals for school fees or other regular expenses. You receive money tax-free when your policy ends, and the **Assupol One Bonus** if you didn't make cash withdrawals from your policy.

Policy highlights

- Your money is paid out tax-free when your policy ends
- **Education and emergency access:** A cash withdrawal can be made every year after five years. The balance remains for longer term needs
- You can increase your monthly premium to protect your savings against the effects of inflation or to grow your investment further
- You can add a benefit so that premiums don't have to be paid after your death or if you become disabled
- **Assupol One Bonus** – rewarding you for disciplined savings by boosting your policy's maturity value
- Premiums start from R300 per month.

How much can the Assupol One Bonus be?

Up to **33%** of your policy fees and allocation charges are paid back to you, to boost your maturity value after five withdrawal-free years.

Up to **100%** of your policy fees and allocation charges are paid back to you, to boost your maturity value after ten withdrawal-free years.

Remember – it's never too early or too late to start saving.
