

PSA extends best wishes to learners and educators

MAHIKENG MAIL - MAHIKENG: The Public Servants Association (PSA) in the North West conveys best wishes to all learners and educators as the 2025 preliminary examinations commenced across the province.

The PSA recognises the dedication, resilience, and hard work invested by learners throughout the academic year. These examinations mark an important milestone in their journey, and all candidates are encouraged to approach them with focus, discipline, and confidence.

The PSA equally acknowledges the commitment of educators who, despite difficult circumstances, have gone beyond the

call of duty to prepare learners for success. Their guidance and tireless effort remain cornerstones of quality education.

The workers' union further calls on parents, guardians, and communities to create a supportive environment for learners during this period. A united effort from all sectors of society will ensure that learners write under conditions of peace, stability, and encouragement.
