Closing of PSA Provincial Office: Polokwane

The PSA Provincial Office in Limpopo was closed on 15 January 2021 to allow for disinfection after an employee tested positive for COVID-19. The PSA, as employer, is fully committed to comply with safety protocols as directed by COVID-19 Regulations to ensure containment of the virus and saving lives. The provision of a workplace that is safe and without risk is a legal requirement. Sanitising, washing of hands, observation of social distance and wearing of masks remain critical.

Members are, however, assured that the PSA will continue to render services whilst the Office is closed. Members are advised to contact the Office as follows:
