Update: PSA representation on COVID-19 Committees in Limpopo

Members will recall that DPSA *Circular 7 of 2020* and various Departmental *Circulars* called for the establishment of Steering or Response Committees to deal with the management of COVID-19 in their Departments. The PSA has, however, learnt that some Departments are yet to establish such committees whilst others established committees without representation by labour or the PSA. This omission creates a barrier for timeous intervention and coordination by the PSA at the detriment of members hence they will push for establishment where committees are not in place.

The PSA calls upon all shop stewards who are representing the PSA on COVID-19 Committees to submit their names to the PSA Provincial Office as matter of urgency to enable proper coordination in dealing with the pandemic.
