---

The Public Servants Association (PSA) congratulates Limpopo for achieving an impressive 86.15% pass rate in the 2025 National Senior Certificate examinations, a significant improvement of 1.05%.

This marks a commendable increase from the 85.1% of the previous year. This accomplishment reflects the dedication of learners, educators, parents and other stakeholders and is a powerful symbol of the Province's consistent progress. All districts in the Province performed above 80%, which has been maintained for two years in a row. The 2025 matriculants will be heroes of history, with more learners achieving quality results, Bachelors and Diploma passes that open doors to further study and the development of critical skills.

People of Limpopo are celebrating tangible progress as the class of 2025 made them proud. To ensure sustained progress, the PSA calls for investment in resources and infrastructure for all schools to ensure equitable and conducive learning environments. All stakeholders must continue investing in education to support Limpopo's progress for a prosperous future. The PSA is committed to supporting initiatives that advance education.
