FOR PSA MEMBERS: ANTICIPATED WATER PROBLEMS IN JOHANNESBURG AND GAUTENG SOUTH

20-06-2019

It has come to the attention of the PSA that there will be water shutdowns, in the Johannesburg Area on 24 June 2019, that might be going on for about 52 hours. (*see notice attached*).

This normally affects the water supply in most buildings specifically in the center of Johannesburg.

As a precaution Shop Stewards are advised as follows:

Consult timeously with the Office Management to provide 1. Bottled water and 2. Portable toilet facilities.

In cases where management is unwilling to consult with the PSA shop stewards, contact the Chairpersons of the PSA Branches and the Provincial Office for assistance.

Ivan Fredericks
GENERAL MANAGER
