

Positive COVID - 19 case: DTIC

The Department has unfortunately recorded its fourth COVID-19 positive case with the third case reported on 24 June 2020. The third infected employee is located at SSC Building, which has been shut down for disinfection. The fourth employee is located at Block B second, which was disinfected after the employee had been in the office on 19 June 2020. Therefore, Block B will not be shut down as there is no need for further disinfection. According to the employer's report, the third employee and all affected employees who were in contact with the employee have been asked to test for COVID-19 and self-isolate for 14 days. The tracking and tracing of affected employees in the fourth case are still underway.

Members are reminded that if any employee has been diagnosed with the virus, the employer may only allow such employee to return to work upon completion of the mandatory 14 days of self-isolation as well as medical evaluation. Members are advised to continue to adhere to safety measures and to report any non-compliance with COVID-19 Regulations to the PSA shop stewards. Members will be kept undated.
