

INFORMUS

FOR PSA MEMBERS: KWAZULU-NATAL DEPARTMENT OF HEALTH

09-06-2020

Integration of Services between Clairwood and Wentworth Hospitals

Members are informed that a meeting was convened on 5 June 2020 at the eThekweni District Offices of the KZN Department of Health to discuss members concerns about the transfer of nursing personnel from Clairwood Hospital to Wentworth Hospital. This is due to the integration of services between these two hospitals.

Members are advised that Management conceded that the previous process of identifying nursing personnel for transfer was flawed. It was therefore resolved that only nursing personnel from Clairwood Hospital who volunteered will be transferred. Identified Nurses have three days within which to decide and inform the Human Resource component accordingly.

Newly appointed Professional Nurses at Wentworth Hospital will be retained at the Hospital and additional surplus Professional Nurses from other hospitals will be transferred to sustain services at Wentworth Hospital.

Members will be kept informed of any new developments
