

FOR PSA MEMBERS: LIMPOPO DEPARTMENT OF ECONOMIC DEVELOPMENT,
ENVIRONMENT AND TOURISM (LEDET)

26-08-2020

Feedback: COVID-19 Steering Committee Virtual Meeting

The meeting took place on 25 August 2020 and issues discussed are as follows:

Alert Level 2

The Department tabled a return to work plan to commensurate with level 2 as pronounced by the President which was duly consulted with all parties. According to the plan:

- employees with comorbidities and those above 60 years of age will be exempted thus will continue working from home;
- Phasing in approach will continue where those who are sharing offices will continue with rotation to enable observation of social distance;
- All employees not sharing offices will return to work on 27 August 2020;
- Due to anticipated congestion at entry point 2, categories have been determined whereby Admin will report at 7h30 and knock off at 15h30 and CORE will report at 8h30 and knock off at 16h30. It must be noted that this reporting hours will be interim.
- Screening at entry point will still be maintained at all workstations. Wearing of masks, social distance and washing/sanitizing of hands must still be practiced as part of safety measures.

The Circular will be issued relating alert level 2.

Infrastructure

The water challenges remain critical at Nature Reserves which is attributed to amongst other things theft of solar panels and water pumps thus affecting the water supply. Some Reserves do not have access to drinkable water hence employees bring their own bottles of water. An urgent meeting will be arranged between HOD and responsible DDG together with the CFO to ensure intervention. Further, it was reported that IT Call Centre did not have adequate wipes for wiping of the gadget received for maintenance and the matter is receiving the attention. Resorts will no longer be used as quarantine sites.

Members will be updated of further developments.

GENERAL MANAGER
