

INFORMUS

FOR PSA MEMBERS: LIMPOPO DEPARTMENT OF EDUCATION

15-07-2020

Closure of Mopani West District Office

The PSA learned that employees tested positive for COVID-19 at Mopani West District Office. Subsequently, the department closed the building at 27 Peace Street, for disinfection and it will only be opened on Friday, 17 July 2020.

The department will also engage the Department of Health, to assist with the tracing of the contacts, to ensure implementation of health protocols. Although the PSA commends management for closing the office to allow disinfection as per COVID-19 regulations, the PSA is concerned regarding the compliance levels within the Limpopo Department of Education.

The PSA has previously called for compliance with the *OHSA*, in most district and circuit offices, wherein other offices are operating with no water, electricity, toilets, and no cleaners. Members are urged to immediately report these problems to ensure timeous intervention as the PSA will not allow the department to gamble with the lives of members. The department must use the Contravention Notice issued by the Labour Inspector as the basis to ensure compliance of all offices.

Members are advised to report to Lawrence.muvhango@psa.co.za or Paulina.moloto@psa.co.za.
