

INFORMUS

FOR PSA MEMBERS: LIMPOPO DEPARTMENT OF HEALTH

26-02-2020

Transfer of Emergency Medical Service (EMS) personnel

Members will recall that an *Informus* was issued previously advising that the moratorium on cross and internal transfers has been lifted. Members were advised that those whose applications were previously rejected, should resubmit for further consideration.

The employer has, however, to date not yet issued any communication regarding the process and forms to apply for transfer. The employer issued guidelines on how employees can apply for transfer. It is important for members to use the applicable form as issued by the employer and members are advised that those who submitted applications after the *Informus* was issued in December 2019, must resubmit on applicable forms before the closing date of 31 March 2020. Should members fail to submit before the closing date, their applications will only be considered in March 2021.

The employer has further established a committee to consider transfer applications. The committee consists of Operational Manager, all District Managers, EMS HR and labour. The employer's communication and application forms are *attached* for ease of reference.

Members will be informed of developments.
