The Office of the Premier, which is the custodian of governance in the Province held a briefing meeting with Labour on the 8 May 2020. The objective was to update Labour on developments around preparation of one third employees to return to work.

All the Head of Departments in the Northern Cape were present and respective Departments provided a progress report on their state of readiness. All provincial Departments reported that their offices were deep cleaned, except for Department of Transport, Safety and Liaison, Department of Social Development and Department of Economic Development and Tourism.

The said Departments were in the process of finalizing the deep cleaning of their offices and an update will be available at the next meeting. It was agreed that this forum will meet fortnightly, so that monitoring of compliance by Departments takes place and whatever is lacking is identified and attended to.
