COVID-19 UPDATE: Truck driver tested positive – Kopfontein Border Post – Department of Home Affairs

The truck driver was detected to be positive with the virus at the Botswana Border Post, after leaving the South African Border Post, which is in Kopfontein.

Members were stopped from working while the whole place was disinfected after the incident on Thursday, and all members were subjected to screening and testing on Friday 15 May 2020, in ensuring that they did not contract the virus. The outcome of the results was obtained, and members were found to be negative of COVID-19.

The PSA applauds the swift response and action by employer to ensure that the safety of employees is prioritised. The PSA will continue to monitor departments/institutions to ensure there is always compliance.
