

FOR PSA MEMBERS: NORTH WEST DEPARTMENT OF EDUCATION

09-06-2020

COVID-19: Non-compliance by the Department of Education and Sports Development

It was reported to the PSA that the Department of Education and Sports Development in the North West has failed to disinfect the offices and toilets used by staff. The supply of masks was also insufficient to issue to all staff. There is no plan for the staggered return of employees at work as almost all workers have returned to work. The keeping of social distance is also threatened by the number of staff reporting for duty.

The PSA is concerned about the risk involved and officials may be easily infected if there are no measures put in place to protect them. A letter has been sent to the Administrator seeking his intervention and response.

Members should report the non-compliance of safety standards to the PSA's Provincial Office in Mahikeng.
