FOR PSA MEMBERS: PUBLIC SERVICE COORDINATING BARGAINING COUNCIL  
(PSCBC)

07-05-2020

## Urgent update: Salary Increases 20/21

### **Failure to implement salary adjustments in terms of resolution 1/2018**

Members were previously informed of the developments regarding the implementation of the PSCBC Resolution 1/2018. It is unfortunate that the employer has refused to implement the above agreement as per clause 3.3 of the resolution.

As previously reported, the PSA believes that the employer is in breach of the contract of employment and will enforce it through the Labour Court. The PSA has finalised its papers and the Registrar of the Labour Court was approached for a case number. The Labour Court subsequently issued a directive on how its operations will continue under level-4 lockdown and informed our lawyers that there will be no case numbers allocated during the lockdown, save for urgent applications.

It is unfortunate that we will have to wait for the reopening of the court in order to obtain a case number and to properly serve and file the wage dispute, as per the court rules. Members must rest assure that the PSA will protect their rights and interests in this regard.

Members will be kept informed of any new developments.
