

## Update: CCPGP

### **PMDS: Incentive bonuses**

The employer provided a report on the 14 Gauteng Provincial Departments' progress with the payment of incentive bonuses for the 2020/21-financial year. It was disappointing to note that only Gauteng Roads and Transport completed the process and paid members. The other Provincial Departments are in various stages of processing the incentive bonuses. No commitment could be given of payment before the closure of the festive season but all employers undertook to finalise the process before the end of January 2022. The PSA will monitor progress closely.

### **Early Childhood Development: Transfer from Social Development to Education**

Members will remember that the PSA previously reported that a task team has been formed to oversee and monitor the process. The report of the task team showed that the process is making good progress and that implementation of the transfer will start as early as January 2022, with a finalisation date of 31 March 2022.

*The PSA wants to take this opportunity to wish all employees who are unwell owing to COVID-19 a safe and speedy recovery.*
