Update: Constitutional Court judgement on Public Service wage dispute still pending

Members are aware that the PSA previously challenged the non-implementation of the clause 3.3 of PSCBC Resolution 1/2018 on wage increases for public servants that were not honoured by the employer.

This matter proceeded to the Labour Appeal Court, which was unsuccessful and whereafter the PSA launched an appeal to the Constitutional Court on 24 August 2021. The Constitutional Court reserved judgement and the outcome is still being awaited.

The matter is complex and the PSA anticipated that it would take a considerable period for judgement to be delivered. Members are thus requested to exercise patience. Members can rest assured that once judgement is received, they will be updated.
