Feedback: Bilateral meeting - Implementation of new organisational structure without consultation (26 January 2022)

It was previously reported in the *Informus* of 20 December 2021 that there would be several meetings as the said process is ongoing regarding consultation of the new organisational structure. Another meeting was held on 26 January 2022 and all districts, directorates, and research stations have been workshopped on the placement of migration guide. The process of visiting districts started on 26 January 2022 and ended on 4 February 2022 when the last district was visited. All institutions have been given until 11 February 2022 to disseminate information down to all employees in the Department, including cleaners, groundsmen, and farm aids. The employer is expected to submit proof of attendance registers that all members in the Department were consulted of the migration placement guide. It was also agreed that the employer should submit reports by February 2022 in preparation of the actual migration in April 2022.
