## What is happening in SARS?

### Travel Allowance dispute

Members were informed that the travel allowance dispute that was referred to the CCMA was concluded in December 2021 and that the CCMA ruled against the PSA. The PSA and its legal team studied the award and are of the opinion that the PSA has strong prospects of success to review the arbitration award through the Labour Court.

The PSA therefore instructed its attorney to start drafting the notice of motion to review the award at the Labour Court. Such a review at the Labour Court does, however, take some time and members are requested to exercise patience.

Members will be informed of developments.
