Online application system error for internal advertised posts: Mpumalanga Department of Health

It has come to the PSA's attention that many applicants using the Mpumalanga Department of Health Online Application system to apply for recent internal advertised posts, dated 6 March 2024, are experiencing challenges with submitting their application online.

The PSA engaged the employer about this hindrance and requested the Department to extend the closing date to assist those who are affected. The PSA subsequently reached an agreement with the employer that all members who could not successfully apply would not be disadvantaged, and the Department is still establishing ways to assist applicants.

The PSA therefore urges members who are directly affected to submit their names, the post that they were applying for, the center, the reference number of the post, and also indicate the error message received from the online system to the PSA Provincial Office in Mpumalanga so that all affected members can be assisted. The stated information can be submitted to Sbongile.ngomane@psa.co.za.

The PSA will continue to protect and promote members' rights and interests.

Reuben Maleka
GENERAL MANAGER
