PSA invites Gauteng Medical Officers to online meeting

The PSA, representing more than 245000 employees in South Africa across the public sector and state-owned enterprises, has engaged with the Union's members and identified several pressing issues affecting Medical Officers in Gauteng. These include:

- Overtime contracts,
- Shortage of Medical Officers in hospitals and clinics,
- Lack of adequate accommodation, *etc.*

Given the urgency and seriousness of these challenges, the PSA has requested an urgent meeting with the employer. However, before that engagement, the PSA believes it is critical to first meet with all affected members. The PSA therefore calls on all Medical Officers, Interns, and Community Service Doctors to attend a virtual meeting as follows:

- Date: 16 April 2025
- Time: 18:00
- Platform: *Microsoft Teams*

To receive the meeting link, please contact one of the following PSA representatives:
