

FOR PSA MEMBERS: **GENERAL 22/2025**

05-12-2025

PSA celebrates milestone year in service of members

The PSA's 2025 performance reflects a year of focused service delivery, memorable victories, expansion, and growing member confidence - all under the banner of celebrating 105 years of service excellence. Throughout the year, the PSA sustained the Union's firm stance on protecting and advancing members' rights, driving campaigns that held employers accountable for meeting occupational health and safety standards. Various landmark arbitration and court awards translated into meaningful improvements for members. Across the public sector, employees continued to benefit from the PSA's decisive interventions in workplace disputes.

In 2025, the PSA's social investment footprint also expanded, with targeted initiatives delivering essential resources to clinics across the country, improving community healthcare delivery, and reinforcing the PSA's standing as a Union with Soul in support of strengthening public service delivery.

Members also benefited from an ever-expanded range of fringe benefits, signaling a forward-looking Union that is responsive to members' needs and the realities of a changing public-sector environment.

Members are thanked for their efforts in service of South Africa and for the trust placed in the Union of Choice as their workplace custodian!
