## What is happening with Health Promoters in Gauteng?

The PSA has received concern from the Health Promoters who are working within the Department of Health in Gauteng. The concern related to salary disparities between themselves and Health Promoters from other provinces. They argue that they are on salary level 4, while others in other provinces are on level 5. The concern was registered with the Head of Department for the Gauteng Department of Health. There is an undertaking from the Department to conduct a Job evaluation process. Members will be kept updated on any further developments.
